

An abstract painting featuring a large, multi-colored dragon-like creature, possibly a Qilin, set against a dark, swirling background. The creature's body is composed of vibrant colors like red, orange, yellow, green, and blue, which blend into the surrounding environment. It appears to be emerging from or interacting with a dark, textured surface. The overall style is fluid and dynamic, with visible brushstrokes and a sense of movement.

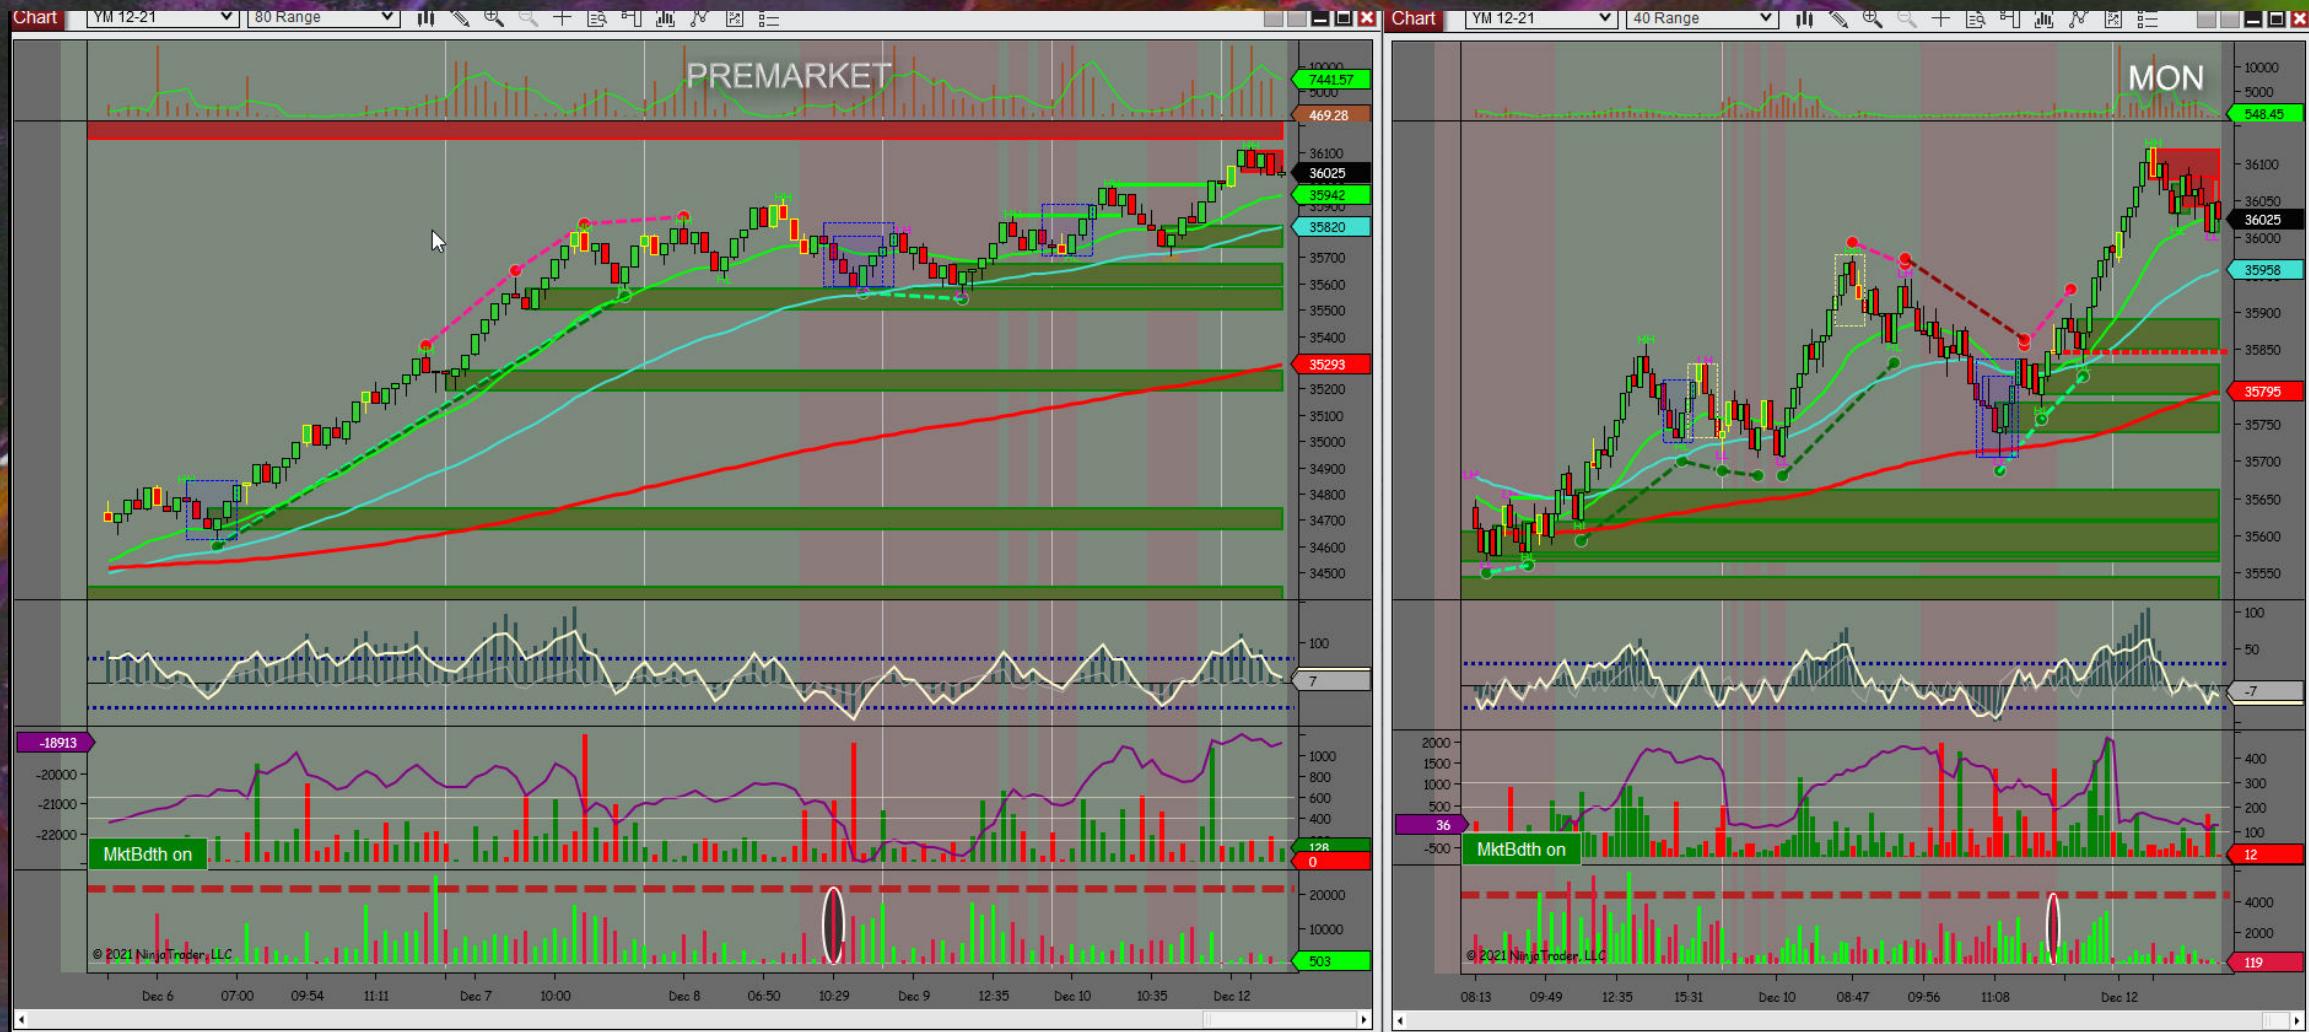

Trading 3rd Week of December

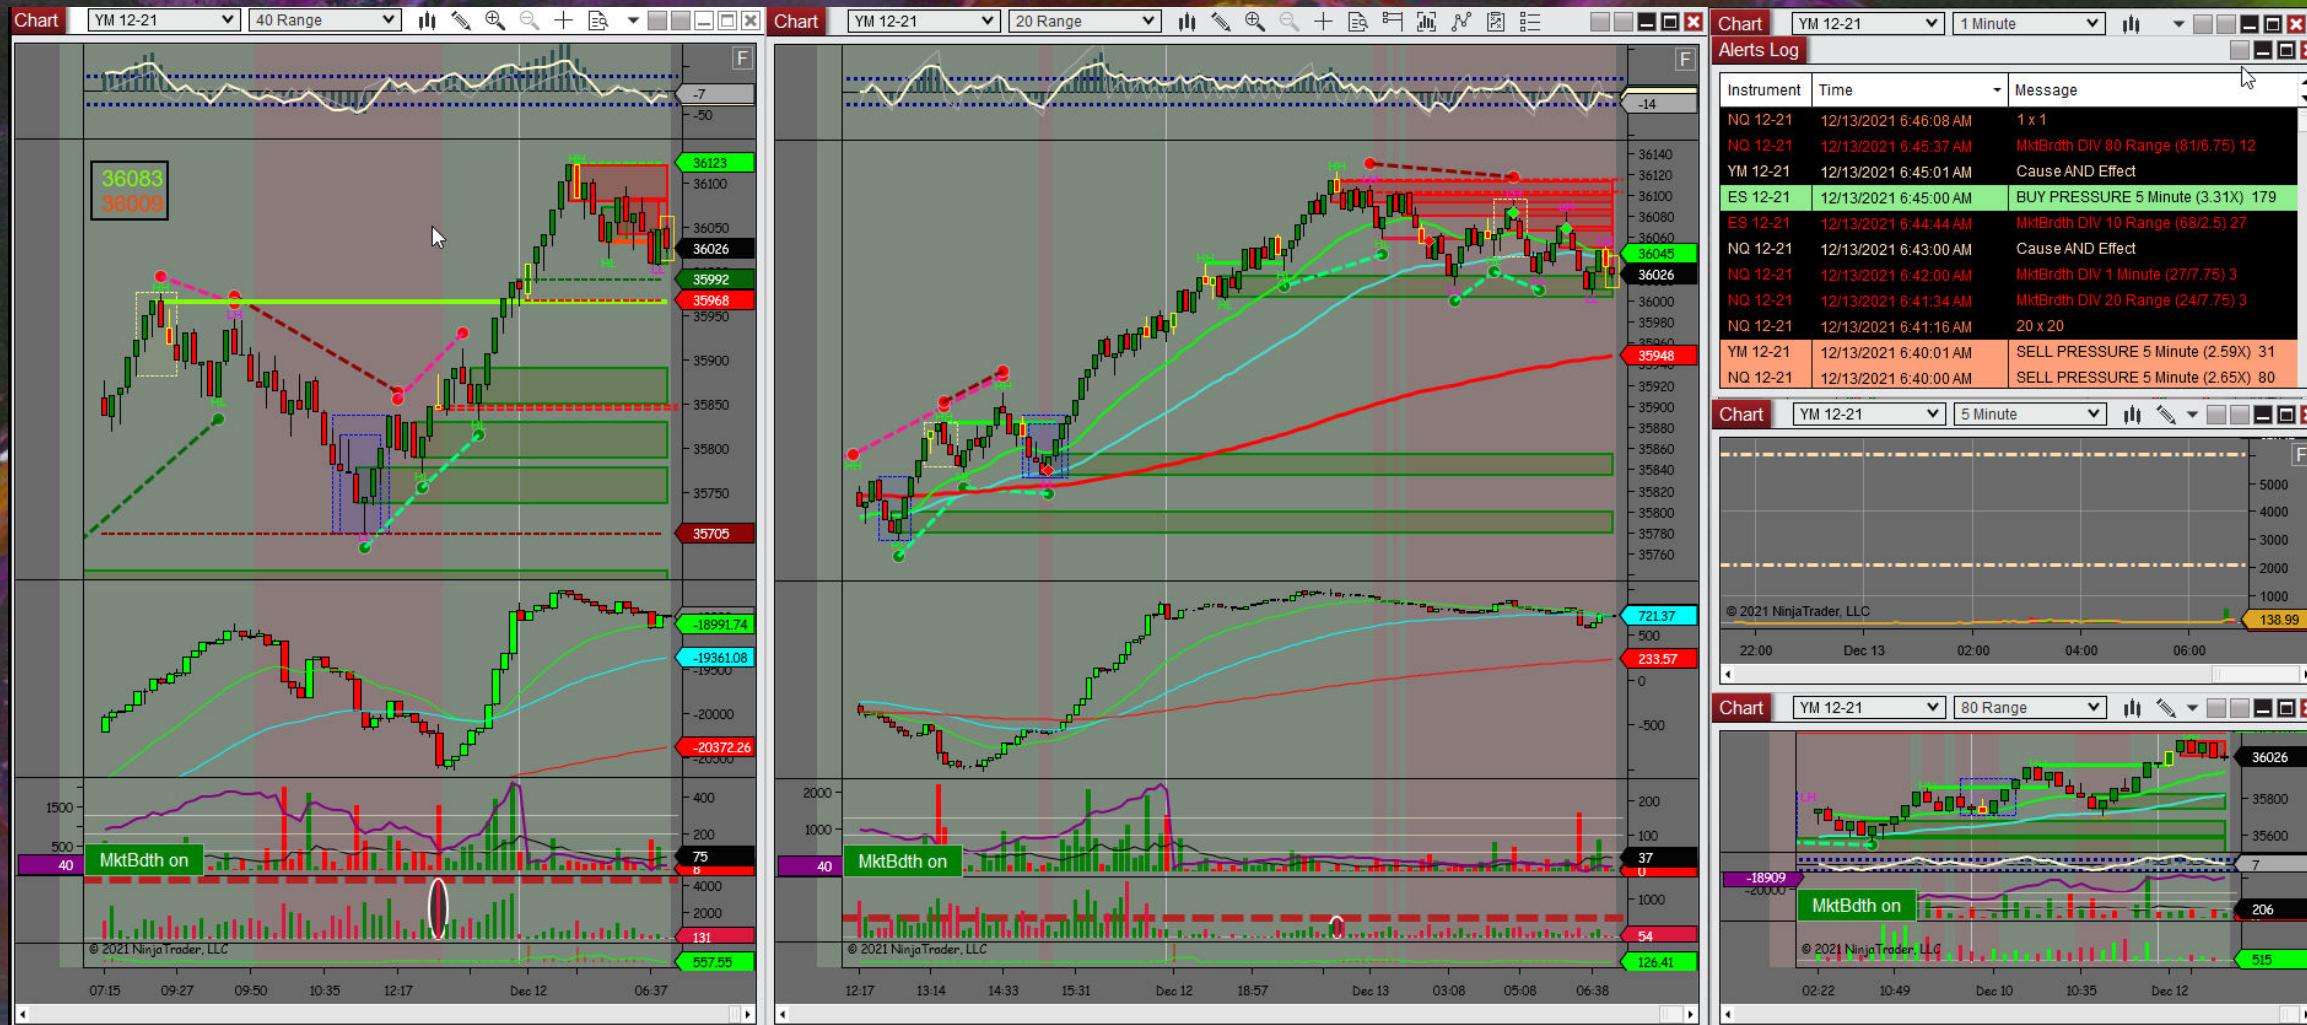

(12/13/21 - 12/17/21)
