

A close-up photograph of a squirrel's head and shoulders. The squirrel has brown and black fur with white patches around its eyes and on its chest. A significant amount of white snow is clinging to its fur, particularly on its head, ears, and chest. Its whiskers are clearly visible, and it is looking towards the right of the frame.

# Trading 4th Week of December

(12/21/20 - 12/25/20)
